hygiene

At school, your child has been learning healthy habits in their lifeskills unit. We would like to continue this practice on a daily basis. This will include getting your child to be able to take care of their own hygiene needs independently including brushing and flossing their teeth, brushing their hair, using lotion and chapstick as needed, and cutting their own fingernails and toenails. If you would like your student to work on all of these tasks at school daily, please sign the permission slip below.

I give permission for my student ______ to participate in the hygiene unit at school.

I do not give permission for my student ______ to participate in the hygiene unit at school.

Parks and Walking Trails

At school, your student has been working on many social and sensory skills including taking turns, playing with others, and mindfulness. Going to parks around Saint Peter, your student can practice their social skills in a new environment. Saint Peter also has many beautiful trails in nature where students can practice their sensory exploration and mindfulness.
